

HOW TO ACCESS MORE APPS

If you don't see the app you want on Android TV > Apps & Games, you can search Google Play Store to add the app to Android TV yourself.

Here's how:

1. Press the TiVo button  to go to the TiVo home screen
2. Select Apps & Games
3. Select Google Play Store - you will need to sign in with your Google Credentials if you haven't already
4. Select the App you want - then click OK to install
5. Sign into the app with your App Credentials
6. Repeat these steps to download more apps

Note: You will now be able to Access your new Apps like Disney+, Prime Video, and Netflix from the Apps & Games section in the TiVo home screen.
