

How to migrate your Cablerocket email account to Gmail

Step 1

Click on the following link: <https://www.google.com/intl/en> or copy and paste the link in the browser of your choice

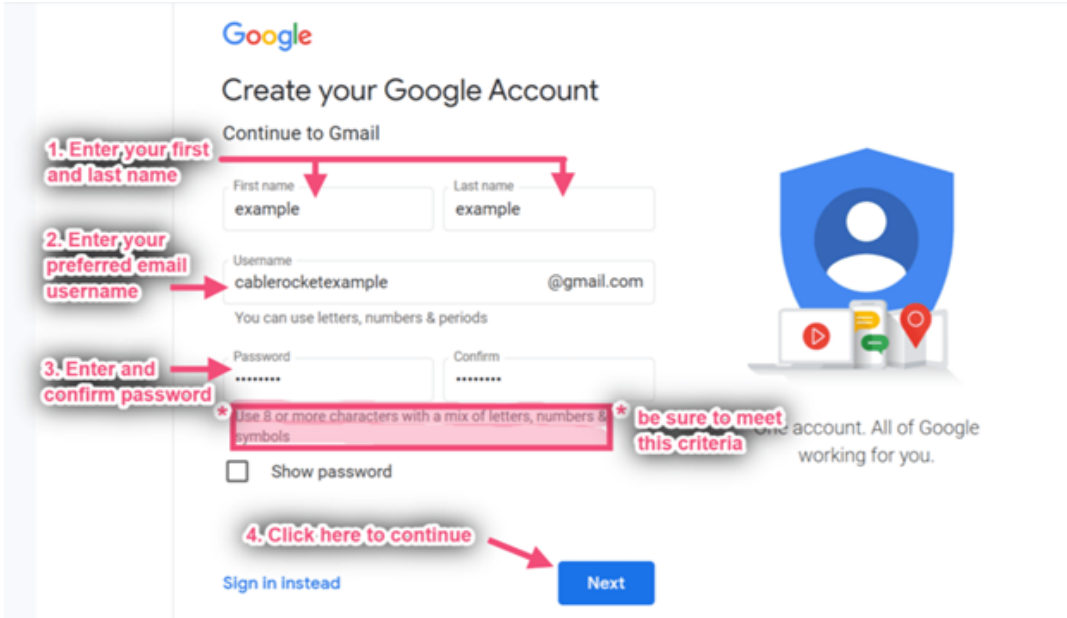

Step 2

1. Click or tap on either of the 'Create an account' buttons, in the top right or bottom left corners of the screen

Step 3

1. Fill in both the 'First name' and 'Last name' fields
2. Enter your new preferred email address/username
3. Enter and confirm your password (it must meet the criteria highlighted and both fields must match)
4. Click or tap on the blue 'Next' button to continue

The screenshot shows the 'Create your Google Account' page. The form fields are: 'First name' (example), 'Last name' (example), 'Username' (cablerocketexample@gmail.com), 'Password' (masked with dots), and 'Confirm' (masked with dots). A red box highlights the password criteria: 'Use 8 or more characters with a mix of letters, numbers & symbols'. A blue 'Next' button is at the bottom right. Annotations include: '1. Enter your first and last name' pointing to the name fields; '2. Enter your preferred email username' pointing to the username field; '3. Enter, and confirm password' pointing to the password fields; and '4. Click here to continue' pointing to the 'Next' button. A 'Sign in instead' link is at the bottom left.

Step 4

1. Enter recovery information.

(While it does state that this information is optional, it is best to at least fill in either the recovery phone number or email address. It not only helps when you forget your password but when you go to activate in the next step as well)
