

## How to setup your Mascon IPTV (TiVo)

Set Top Boxes make regular connections to the Mascon IPTV service to receive updated show listings, service updates, and other information. You can connect to the Mascon IPTV service through a wired or wireless connection. If you experience lag or TV stream issues while using a wireless connection, we recommend switching to an Ethernet connection (if feasible).

### Install Kit Includes:

1. IPTV Set Top Box (TiVo)
2. Ethernet cable
3. HDMI cable
4. Power Adaptor
5. Android Remote w/ batteries

## How to setup your Mascon IPTV Option 1: Ethernet

1. Connect an Ethernet cable from the Set Top Box to an Ethernet port on your router or wall.
2. Connect the HDMI cable from the Set Top Box to the TV. Make sure to use the correct input.
3. Connect the power adapter to the Set Top Box and plug it in to a wall socket.
4. Turn on your TV to see the Welcome screen. Please choose your preferred language.
5. The remote control needs to be “Linked” with your service and connected to the network. To do so, simply:
  - Select the Link button highlighted in blue.
  - Press the Android button and the back button simultaneously until the LED turns red.
  - This will start pairing your remote.
6. Once your remote has been paired, you're ready to begin the **Guided Setup**. Just follow the on-screen instructions.

Or **Scan the QR Code** using the camera on your smartphone or tablet.

## How to setup your Mascon IPTV Option 2: Wireless

Make sure your wireless home network is working properly. You'll need your Wi-Fi network name and password to connect.

1. Connect the HDMI cable from the Set Top Box to the TV. Make sure to use the correct input.
2. Connect the power adapter to the Set Top Box and plug it in to a wall socket.
3. Turn on your TV to see the Welcome screen. Please choose your preferred language.
4. The remote control needs to be "Linked" with your service and connected to the network. To do so, simply:
  - Select the Link button highlighted in blue.
  - Press the Android button and the back button simultaneously until the LED turns red.
  - This will start pairing your remote.
5. Select your Wi-Fi network from the list provided.
6. Enter your password and select → then press **OK**.
7. Once connected to the Wi-Fi network, you're ready to begin the **Guided Setup**. Just follow the on-screen instructions.
