## How to set up your favourites list?

A Favourites List will allow you to control what you see when you open the Program Guide on your Mascon Digital Cable Box. Perhaps you'd just like to see the channels that you actually subscribe to, rather than all channels that you could be getting. Maybe you'd like to set up a list for His channels and list of Her channels. Perhaps a list of just the Sports channels, or just the Music channels. The power is yours! You can set up as many lists as you like.

For the purposes of this document, we'll be using the following highlighted buttons on the remote, as well as the 4 arrow buttons:

### How to create a Favourites List

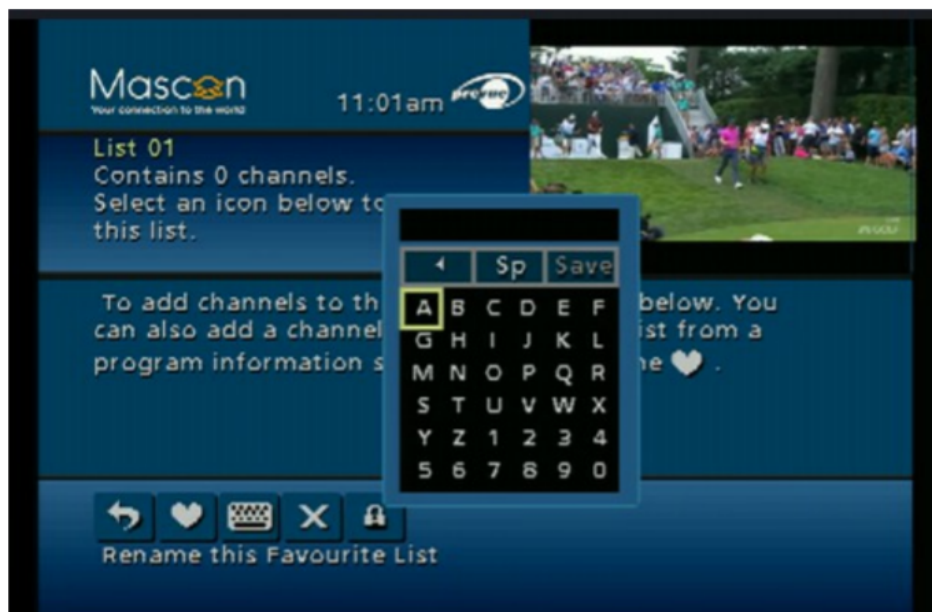

If this is the first time you have set up a Favourites List:  
Press the **FAV** button on your Mascon Remote Control.  
Select **Set up Favourite List**.  
Press **OK**.

A new list is automatically named **List 01**, and will contain 0 channels. You might want to start by renaming this list something more descriptive. For example, you can set up a list of the favorite sports channels you often watch, so perhaps name the list My Sports. If you are creating another Favourites List, perhaps this one would be called Go To, and might only contain the channels that you love to watch all the time. Select the option to **Rename this Favourite List** (pictured below).

Using the **ARROW** keys on your Mascon Remote, input a new name for your Favourites List. Once complete, select **Save**.

If you want to create an additional Favourites List:

Press the **MENU** button twice.

Scroll down using the **DOWN** arrow on your Mascon Remote to **Setup** and press **OK**.

Select **Favourite Lists Setup**.

Select **New** and press **OK**.

Press the **OK** button to add a channel to your Favourites list.
