

How to setup your HDTV Digital Receiver

This article will provide you with step-by-step instructions to setup your digital receiver.

Installing:

1. Find the **cable in port** on your digital receiver and insert one end of the coax cable.
2. Connect the other end of the coax cable to the **cable wall outlet or two-way splitter**.
3. Find the **HDMI port** on the digital receiver and insert one end of the HDMI cable.
4. Find one **HDMI port** on your TV and insert the other end of the HDMI cable.
5. Connect the **power cord** to the digital receiver and plug the other end to the electrical outlet.
6. Turn the TV on and find the **input/source** button, then choose the correct HDMI source.

For instructions on how to program your digital receiver remote control, please visit: <https://mascon.ca/self-help-cable-tv/>.

Activating:

To activate your digital receiver, please call our Technical Support Team at: **1-866-832-6020**.

Please note: After your digital receiver has been activated, the tv guide listings may take 45 minutes to appear on the screen.
