

## What is Mascon Stream TV?

Mascon Stream TV instantly gives you total control of the TV programming you love, and much more! Unlike traditional TVs and set top boxes that get a TV signal over a coaxial cable connected to a cable wall jack in your home, your Stream TV device gets the TV signal over a wired or wireless connection to your home network.

You'll receive all of your channels, as well as On Demand and access to streaming providers, over that one connection. With the ability to record shows, movies and every episode of a series you won't miss a thing!

### Home Screen

Start Here For Just About Everything.

The Home screen is the starting point for just about everything you do with your Stream TV. From the Home screen, you can easily access popular destinations, get personalized recommendations from the SmartBar and What to Watch, and view settings. To get to the Home screen from anywhere, just press the TiVo  button on your remote control.

### My Shows

Find. Watch. Repeat.

All of your recordings, On Demand shows, and streaming videos appear in the My Shows list. To get to the My Shows list from the Home screen, just select My Shows.

By default, My Shows is sorted by date, with newly added or recorded shows and movies first. You can choose to sort My Shows by name (alphabetically) instead using the My Shows options screen.

And no matter where you are in the My Shows list when you leave it, your Stream TV box will remember the location and bring you right back there when you return.

## OnePass

Your Ticket To Limitless Entertainment.

OnePass gathers every episode of a series available anywhere and adds them all right to your My Shows list. Now you can watch a series from beginning to end, or start on any episode or season you want. If it's not available on TV or video on demand, OnePass fills in the gaps with episodes from providers like Netflix and HBOGo.

To create a OnePass, find a show you want to watch, press the info  button then choose "Create OnePass."

## The Smartbar

The SmartBar predicts shows to watch based on what your household usually watches at a particular time or day. For example, if you normally watch the previous nights late-night talk show the next morning, you'll see it in the SmartBar when you wake up. If the kids tend to watch shows while dinners cooking, those shows will be waiting in the SmartBar at that time each day.

Use the DOWN arrow on your remote control to move to the SmartBar, then select a show to go to the Series or Movie screen, where you can choose to watch it.

## Quickview

Want to take a quick look at what else is on? Simple. While you're watching live TV or a recorded show, QuickView lets you see what else is playing now or coming up without missing the action on the show you're watching.

- UP shows you what's coming up on live TV with a mini guide. To close this panel, press BACK.
- DOWN displays the Home menu and SmartBar, with quick access to the shows you watch regularly, based on the current time and day of the week.
